

# KEEP CISCO BEAUTIFUL PLANS DOWNTOWN LIGHTING

Janelle Campbell

Once again we have HIGH hopes for lighting the downtown area. The Cisco Development Corporation, Cisco Civic League, and ASB gave donations so we could expand the lighted areas and we hope to continue with more each year. New lighted places to look for this year include Ted & Rex's One Stop, Cross Ties, Mexico City, and the 5 story building on the corner of Conrad Hilton & 6th. And we hope to have a few more before we run out of lights. Several of the downtown buildings either replaced roofs or painted which meant the lights were removed and had to be put back up. Plus we had problems with some of them just falling down. There were several people helping get them back in place along with the help of Cisco High Lift who brought equipment so the high places could be reached. Most have been stuck back in place. We need to remind those in charge of plugging in their section to get those extension cords and timers going by Thanksgiving. There will be lots of travelers through our area and we want them to have something to remember about our fair city. Thanks to all who are keeping this new tradition going and may your Christmas season be merry and BRIGHT!
